

Dear colleagues,

I feel honoured to present the Journal of Biomedical and Clinical Research, a new publication of our dynamic and forward thinking university - the Medical University in Pleven.

Journal of Biomedical and Clinical Research is a peer-reviewed, multidisciplinary scientific medical journal, published twice a year.

The goals of the journal are to contribute to popularizing medical theory, research and practice; to provide for the creation of a circle of expertise; to give opportunities to authors to present their ideas, results and experience. Journal of Biomedical and Clinical Research aims to encourage medical investigations and promote the acquisition of new methods in scientific research. We hope to present, teach and stimulate innovative approaches and responsibility in scientific research.

Journal of Biomedical and Clinical Research will publish reviews, original articles and communications in the field of biomedical and clinical research, public health and health care, medical education research, and case reports written in English. The journal follows uniform requirements for manuscripts, submitted to biomedical journals, developed by the International Committee of Medical Journal Editors.

Journal of Biomedical and Clinical Research can be found at jbcr@mu-pleven.bg to reach more readers.

Journal of Biomedical and Clinical Research

Vol. 1, No.1, September 2008

The editors, the advisory board of prominent specialists and university faculty members from Bulgaria and abroad work in all fields of medicine, and are a prerequisite for high quality scientific product of the publication.

I am confident that, with collaborative efforts of the team and support of all colleagues submitting communications will enable us to produce a journal meeting the high requirements of today, facing challenges of tomorrow and bringing satisfaction to us all.

I wish successful careers, inspiration and prosperity to all of you!
